

## Experience from our trip to Spain

The flight was good.

The hotel was nice and clean.

The first day we were in the school and had met the Spanish and Swedish people.

We have held our presentation on Berlin and listened to other presentations.

On the second day we were with the Spanish people at the practice place for 4

hours. The work was good but we had problems with the communication. At the evening we were in the school and had talked about the day.

One day we were in the swimming-pool, it was funny but the bathing caps were not beautiful.

On Wednesday we were in Barcelona, we had looked at sight

and were in the harbour. For 1 hour we went shopping. It was nice to see Barcelona, there are many people, it is very clean, the police officers ride on horses and Barcelona has a beach with palm trees and ocean. Barcelona is very big.

When we were in Barcelona we visited a park by the famous artist Gaudi. It was nice to see his work. The park is so famous that people from all over the world visit him.

One day we were in the hall of Vilafranca. There talked to us the mayor, the teachers and the school leader.

The food at Vilafranca was not so good. Especially the pizza was not delicious.

The Spanish and Swedish students were very nice and friendly.

We like the exchange and would do it again.
