

Xavi and Sara at the swimming pool

Xavi and me met at half past eight in the morning in front of the the school. We went together to the swimming pool. We worked together at the reception. At 9 o clock we began to the work. At Tuesday we sorted sheets of papers by numbers.

Alter Xavi showed me the swimming pool. The swimming pool area is quite big and beautiful. It has two saunas and a whirlpools (yakutsis). It also has a gym for training.

In the morning some people came there for swimming, others for training.

The swimming pool has many employees. When the parents go for swimming they can let their children in a place where some nurses look alter them. So everything is well organized, better than I know it from Germany. I enjoyed my stay although it was not easy to communicate.
