Our experience in practical places

“ HAMZA

“ My company was a bike shop. My partner was Steven, a boy of 17 years. He's very nice and fun.

We made repairs bikes because everyone was there by bike. There were many bikes and we changed the wheels, brakes, maillars etc..

What I liked most is to take a bike ride with Steven.

# Ferran

The company was the mechanics of motorbikes.

My partner was Patrick.

We started at 10:30 h to 15:30 h and we were dismantling a motorcycle for sell some pieces to other companies.

There were a lot of old motorbikes.

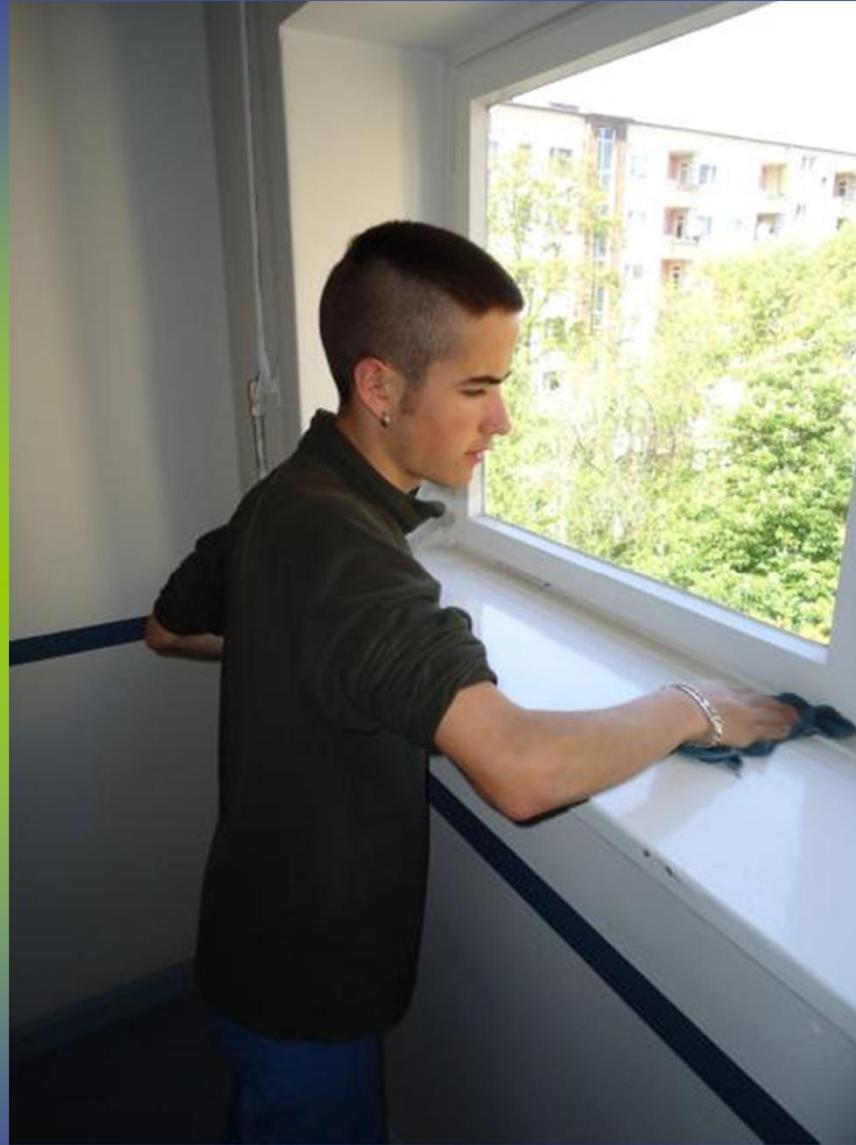

# Alejandro

“ I was at a printing press with Philip. He is a nice guy and he has 17 years. We arrived to the company at 8:30 pm. I learned to use the machine to cut paper and almost cut the hand! Philip saved me! What I liked most was the people were very friendly with me. At 14:30 I returned to the hotel.

# Ion

“ I went to the company with Lisa at a cleaning company, it was a good experience because I learned different things that are not here. The schedule is different than here: from 6:00 to 13:30. We clean up various buildings and a mall. When I finished I was dead!
